CAREER OBJECTIVE

Motivated and detail-oriented Computer Applications graduate with strong foundations in Java, Python, and database management. Experienced in developing console-based applications using Java and MySQL. Seeking an entry-level software developer role to apply problem-solving skills and contribute to building efficient and scalable software solutions.

EDUCATION

KGISL Institute of Information Management <i>Master of Computer Applications (MCA) – Currently Pursuing - 83.5%</i>	Coimbatore, India 2025 – 2027
KG College of Arts and Science <i>Bachelor of Computer Applications – 79.71%</i>	Coimbatore, India May 2025
Vidya Vikasini Matriculation Higher Secondary School <i>HSC – 91.00%</i>	Coimbatore, India May 2022
Vidya Vikasini Matriculation Higher Secondary School <i>SSLC – 58.00%</i>	Coimbatore, India May 2020

PROJECTS

Product Inventory Management System <i>Personal Project</i>	<i>Spring Boot, Java, MySQL, RESTful Web Services</i> July 2026 – Aug 2026
– Built a Product Inventory Management System using Spring Boot, MySQL, and RESTful Web Services. Implemented CRUD APIs for product, inventory, search, and shopping cart management using Spring Data JPA.	
Medicine Buying and Tracking – Healthcare Application <i>UG Final Year Project</i>	<i>XML, Java, SQLite</i> Jan 2025 – Feb 2025
– Developed a mobile healthcare application enabling users to purchase medicines online with prescription image. Implemented features such as medicine intake tracking, refill reminders, and order delivery tracking.	
Bus Reservation System <i>Personal Project</i>	<i>Java, MySQL</i> July 2025 – Aug 2025
– Developed a console-based Bus Reservation System with user authentication, seat booking, and JDBC-based MySQL integration.	
Billing System <i>Personal Project</i>	<i>Java</i> Apr 2025 – May 2025
– Developed a console-based Billing System focusing on object mapping and OOP principles. Implemented customer and product management features, iterative product selection during billing, and automated total calculation with final bill generation. Emphasized modular class design and efficient data handling.	

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++
Backend: Spring Boot, RESTful Web Services, Spring Data JPA
Web Development: HTML, CSS, JavaScript
Databases: MySQL, MongoDB

CERTIFICATIONS

Meta Front-End Development (Coursera) – Oct 2024
Responsive Web Design (FreeCodeCamp) – Sep 2023

SOFT SKILLS

Problem Solving, Critical Thinking, Logical Reasoning, Adaptability ,Quick Learner
